SUBJECT: Surveyors

REMARKS:

1. Items dealing with health of foreign VIPs have been clipped as you requested. In addition, we have clipped one significant item on health conditions in the Dominican Republic. You may note that there are other life sciences articles which would be of interest to [redacted] e.g., "no evidence of BW use by Viet Cong."

25X1A

2. I presume that your request for the items on VIPs is related to my remark the other day that [redacted] guessed this might be [redacted] interest and that perhaps Bud wished to let him see the work that OSI is doing in this area. However, Bud made no statement other than directing that [redacted] receive the 30 days' supply of Surveyors enclosed in a book.

1. Attached is the previous month's supply of Surveyors I put together at the request of Dr. Wheelon and which I'm to hand carry to [redacted] ASAP. I mentioned that [redacted] is only cleared for SI, Crypt, I and O, whereupon Dr. Wheelon asked that we institute a request for [redacted] to be cleared for T-KH.

25X1A

2. Perhaps we might have [redacted] do the paperwork or would you wish to take care of it through your security staff?

25X1A

3. Incidentally, I talked to [redacted] and he has not requested these publications nor has he asked for any security clearances so apparently the initiation is on Bud's part.
